

Liquid Penetrant Testing(PT)

Level I & II SNT-TC-1A Certification Training Course

Why: Certification training is an essential part of Nondestructive Testing (NDT). This training is required by most construction and inspection specifications in accordance with the American Society for Nondestructive Testing's recommendations. The liquid penetrant testing course is a twelve (12) hour class, consisting of classroom instruction, hands-on training session and a three-part final examination..

The course is designed for:

- Personnel with no experience in PT looking to gain understanding of the principles and practices involved.
- Technicians with limited experience in the technique looking to enhance their skills and broaden their understanding of the technique.
- Experienced technicians requiring documented training to satisfy the certification requirements.

Prerequisite Recommendations: High School diploma or GED

When: April 3 & 4, 2008

Where: Total Crane Services
15700 Interstate 10 West,
Orange, TX 77632

Price: \$675 per person including one (1) ASNT PT handbook per student
\$ 25 per additional ASNT Handbook

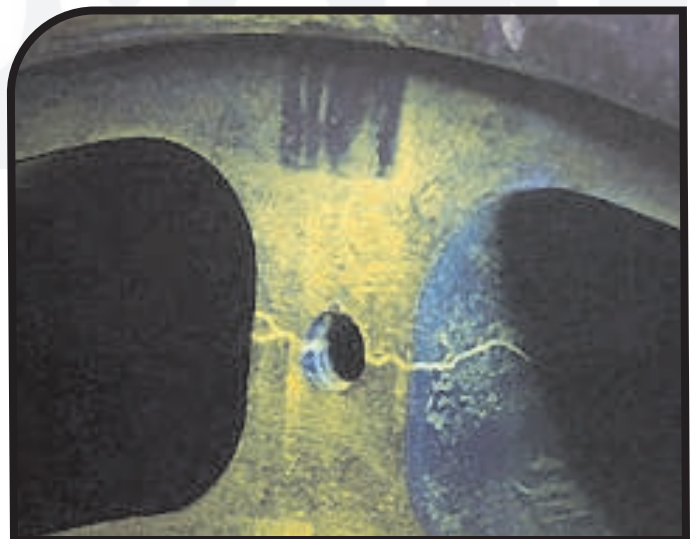

Instructor: James Stuckey began in the field of Nondestructive Testing in 1989 and is ASNT Level III in RT, PT, and MT methods, and Level II in VT, UT(shearwave), and AWS-CWI. He is a current member of the American Society for Nondestructive Testing and the American Welding Society. During his career in NDT, he has conducted examinations in the petrochemical and refining industries, offshore drilling and production platforms, pipelines, and fossil fuel power generation industries.

Terms and conditions: One registration is required per person. Upon receipt of your above registration an invoice will be generated for payment. Payment is due 30 days from receipt. ½ of the course fee will be refunded provided written cancellation is received within 48 hours of the course start. .

Liquid Penetrant Testing Course Objectives & Agenda

Course Objectives:

Provide classroom training hours for both Level I and II certification in accordance with SNT-TC-1A requirements.
Provide hands on training with PT material and weld specimens.
Prepare the candidate for Level II examinations.
Discuss and apply code and standards acceptance criteria.

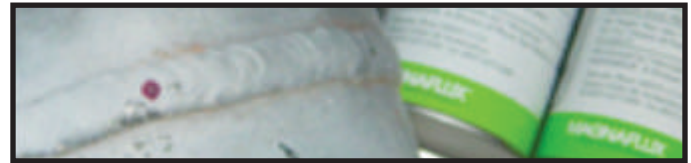

COURSE AGENDA

DAY 1:

- 8:00-8:30 Introductions and course overview.
- 8:30-9:00 Introduction to liquid penetrant testing.
- 9:00-10:00 Liquid penetrant processing.
- 10:00-10:15 Break
- 10:15-12:00 Liquid penetrant testing methods and equipment.
- 12:00-13:00 Lunch
- 13:00-14:00 Selection of liquid penetrant testing method.
- 14:00-15:00 Interpretation and evaluation of indications.
- 15:00-15:15 Break
- 15:15-16:15 Liquid penetrant process control.
- 16:15-17:00 Summary, discussion, and recommended reading.

DAY 2:

- 8:00-10:00 Test procedures and standards.
- 10:00-10:15 Break
- 10:15-12:00 Safety, health and disposal.
- 12:00-13:00 Lunch
- 13:00-14:00 Final review.
- 14:00-17:00 Testing.
